Nylon

Woob

[Verse 1]
Social misery Dripping on my game.
These fake pretences seem disguised.
Through this famed new worldWhere do you want to be now?
Why do you go so fast?
This big filth inspiration.
Closing in your bar.[Chorus]
And you put me here
Cause like me here!!![Verse 2]
Cradle memories
Stitched inside my head
Field election mystified
Dewing out new earthWhere do you want to be now?
Why do you go so fast?
This big filth inspiration.
Closing in your life.{Repeat Chorus}[Chorus 2]
Taste me!!!
Like this!!!
Virus!!!
My Kiss!!!
Space Gone...
The feels wrong...
This union
The lights out[Bridge]
I want into you...
The way you love them I still believe...
I still weep your mess{Repeat Chorus, and Chorus2}[Chorus 3]
The big wrong in all
This peace of dismal people
The overflow of Interest
Palace of shames place pissed righteous.
