

# You've Got the Power

## Pure Energy

You've got the power  
To open the door  
You've got the power  
It's been done before  
Once you get there  
You're sure to see  
You open your eyes  
And love will be easy Cause there's someone who wants you  
Someone to love and please you  
Cause there's someone who needs you  
Oooooohhhh
