

Let's Get Out of Here

Les Savy Fav

I want you
I want you
I want you
right now
I don't need you to soothe me
to fix me
to prove me
I just want you
to want me now
don't care about the warning signs
don't care about friends of mine
don't care about what could should be
I just want you
to want me
right now
Let's get out of here now
Let's get out of here
Let's get out of here now
Let's get out of here
Let's get out of here now
Let's get out of here
We'll all fade away
We're here today
We all got half the road(?)
We got mouths
Let's make them mold
Let's get out of here now
Let's get out of here
Let's get out of here now
Let's get out of here
Let's get out of here now
Let's get out of here
Let's get out of here
