Girl, girl, girl, girl, girl, girl, girl

All I can say is

Girl, girl, girl, girl, girl, girl, girl

Let's go

I don't need nobody else around, see

Love the way you compliment my style

Though you may end up bein' my only girl

'Cause when you're with me you're my whole world

Like when it's just me and you

Vibe is crazy between us two

You're my homie, my lover indeed and my friend

Now I said this before, I'ma say it again

Now here is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's cool

Baby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chick

Baby, I want you to be my entourage

If you want then we could take this very far

Super fly chick

You're a star in your own right

At times you steal the whole spotlight

I don't mind, girl, you're fine, put a smile on my face

Besides who want a chick that no dude would chase

Sometimes I know you're unsure

Wonder if this will endure

Don't make me make no promise that I can't keep

'Cause it's cool how it is, let's not complicate things, girl

Here is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's cool

Baby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chick
Baby, I want you to be my entourage
If you want then we could take this very far
Super fly chick
You're a star, that you are
Be my girl, share my world
Come on girl, super fly chick
Baby, I want you to be my entourage
Super fly chick
You could be my personal superstar
Super fly chick
Baby, I want you to be my entourage
If you want then we could take this very far
Super fly chick
