

# Laser Show

## Fountains Of Wayne

Oh yeah, we're going to the laser show  
Oh yeah, we're going to the laser show  
    Come on baby now don't you know  
    We're going down to the laser show  
They come from Bridgeport, Westport, Darien  
    Down to the Hayden Planetarium  
    We're gonna space out to our favorite tunes  
We're going straight to the dark side of the moon  
    Oh yeah, we're going to the laser show  
    Oh yeah, we're going to the laser show  
    Come on baby now don't you know  
    We're going down to the laser show  
We're gonna sit back, relax, watch the stars  
    James and Jason, Kirk and Lars  
We're gonna make our way across the galaxy  
And then we'll head back home on the L.I.E.  
    Oh yeah, we're going to the laser show  
    Oh yeah, we're going to the laser show  
    Come on baby now don't you know  
    We're going down to the laser show  
    Come on baby now don't you know  
    We're going down to the laser show  
    Come on baby now don't you know  
    We're going down to the laser show
