

Regeneration

Stone Temple Pilots

Regenerate the impoverished souls
That echo you
Bleed to feed the masses
Soup line two times two They got your picture from the
Sunday plain dealer that listed you, dead
Forget the story there's a bounty on
Your head they fingered you Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on Positive cell regeneration
Positive cell regeneration Celebrate the immortal youth
That wasted you
Peel the skin back from all the lies
That blistered you They hold for ransom
All the watered down truths
That splintered your faith
So sell your soul, because you're already
Dead they've listed you Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on To the fields where lesser mice go
To the fields where men follow
To the fields where lesser mice go
To the fields where we all follow To the fields where lesser mice go
To the fields where we all follow
To the fields where lesser mice go
To the fields where we all follow Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on Right away, right away
Green light, get a move on
Right of way, right of way
Stop sign, put the brakes on Positive cell regeneration

Positive cell regeneration
