

# My Sympathy

## Vinnie Who

Against the fallen will  
Negates the need for me  
To try and dampen all the glow  
Don't slow down with ever changing things  
Denied the rest of it  
If ever you could think to know  
Don't slow  
The temper always knows its wasted the  
Temper means that you don't hold on for  
My sympathy that isn't me

I seem to redefine  
Through lack of confidence so take a hold on what we do  
Embedded once or twice  
To change what could be mine and wait up late to send you home.  
The temper always knows it's wasted  
The temper means that you don't hold on for... the temper always knows it's wasted the temper means that you  
don't hold on  
For my sympathy that isn't me
