## Flying Without You

## Laura Mvula

(Verse)

He was a boy in love, just not with me,
I did not see how hard it would be
To love alone without another
Crushed my heart, I fell into pieces.(Pre-Chorus)

I was a girl in love, Gave my heart, Lost my soul

And even though

I was not enough for him back them

I wonder how it couldve been.(Chorus)

Im flying without you, Im right now without you. I found something better,

I love more than ever.

I love more than ever.(Verse)

You were my fantasy,

You gave me something no one else could ever give.

Seemed like a dream back then,

Another story, we were young and innocent. We were a perfect picture,

Make believe I could not see it in went.

Time and time again you left me there,

Another happy memory.(Chorus)

Im flying without you, Im right now without you. I found something better, I love more than ever.
