Chevrolet

Stray Dog

I woke up this morning
I was needing a blast
I jumped into my Chevy
And I stepped on the gas
It didnâ€™t take me long to get free
Riding down the highway my Chevy and me

Well I was approaching ninety
When I heard that siren scream
Looked into my mirror
You know what I seen
The man was coming up on me fast
I had to get my car in gear and give it some gas

*
Hallelujah, hallelujah
Ride my Chevrolet

(* Repeat)

Give it some more

Drive my Chevrolet (Repeat 4 times)

Well I woke up this morning
My woman gave me some sass
I jumped into my Chevy
And I stepped on the gas
And it didn't take me long to get free
Riding down the highway my Chevy and me

(* Repeat 4 times)
