Over

Ivy

So, so pure, our birth, our love
Hope to God, He's really up aboveWhen all is said and done
This flower has begun wilting over, over
When all is said and done
This flower has begun wilting over, overHear me fall, I'm so cold inside
To know we die, makes life a lieWhen all is said and done
This flower has begun wilting over, over
When all is said and done
This flower has begun wilting over, overSo, so pure, our birth, our love
Hope to God, He's really up aboveWhen all is said and done
This flower has begun wilting over, over
When all is said and done
This flower has begun wilting over, overWhen all is said and done
This flower has begun wilting over, over
When all is said and done
This flower has begun wilting over, overWhen all is said and done
This flower has begun wilting over, over
When all is said and done
This flower has begun wilting over, over
...
