

# Cross The Border

## ICEHOUSE

Oh oh... So dangerous, like freedom she fades away  
The vision that chains the heart, foundations that fall apart  
Well, I know this place (east, west, points to the nation)  
(North, south, cut the connection)I said, stealer, steal her, we cross the border  
Steal love, still life, we cross the borderAnd time builds the wall, the wall that is standing still  
And she breaks the spell, the spell that may hold us all  
You build stone by stone, the line that will last for so long  
But for those who dare, her secret is safe with no one  
Well, I know this place (east, west, points to the nation)  
(north, south, cut the connection)I said, stealer, steal her, we cross the border  
Steal love, still life, we cross the border, oh oh whoa ohOh oh ohI said, stealer, steal her, we cross the border,  
mmm  
Steal love, still life, we cross the border, oh oh whoa ohChk-a-chk-a... Chk-a-chk-a...(East, west, points to the  
nation)  
(North, south, lines of persuasion break)  
(East, west, points to the nation, north, south, cut the connection)  
I said, stealer, steal her, we cross the border, mmm  
Steal love, still life, we cross the border, oh oh whoa oh  
Stealer, steal her (East, west, points to the nation)  
We cross the border, mmm (North, south, lines of persuasion break)  
Steal love, still life (East, west, points to the nation)  
We cross the border (North, south, cut the connection break)  
Stealer, steal her (East, west, points to the nation)  
We cross the border, o yea (North, south, lines of persuasion break)  
Steal love, still life (East, west, points to the nation)  
We cross the border (North, south, cut the connection break)  
Stealer, steal her (East, west, points to the nation)  
We cross the border, oh (North, south, lines of persuasion break)
