Etienne de CrÃ©cy

Try to see myself what goes on
Make it up myself, I'll never
Always told my thoughts aloud
Then another day I shut upBack to the sand, doing what you can
Bound to be gone, danged a loser
Found out right then they were fed up
'Cause everybody said to shut upYeah!Thought that you might care what goes on
Try to say what up? I'm fed up
Everybody said to shut up
The last time I told them what up?Down with the sun I knew that I was done
Did it to my self, did it to my self, and then
All this time I said I've been fed up
'Cause everybody tells me shut up
