

Make Believe

Donots

find a name
make it stick
while we're chasing the exit
be everything we cannot be
don't take no blame
throw the brick
gonna dig out the hatchet
we gotta make new enemiesbecause
we're outta sight
we're outta mind
we're make believe and
we're all out of hate
we live a lie
we can't just let it die we're make believeagainst the grain
only for the sake of it
we'll stop the gears of
this machine, this machine
find a name
make it stick
make believe, don't take no hostages
while we're running for the exit
(we're gonna find ourselves)because
we're outta sight
we're outta mind
we're make believe and
we're all out of angst
we live a lie
we can't just let it die we're make believewe beg to indiffer
we are nothing new
gotta make new enemies
like me and you
