Hello Cruel World

sole...

I can't stop the way I feel
But I can penetrate your religion with a nail
You are mine and we are twine
When we radiate in waves together everything is fineHello cruel world do you know that you're killing me?
I don't mind but I could use a little sympathy
I've been blind as a fool can be
My dear cruel world do you ever think about me?I can feel so alone with you right here
And yet I turn to you for comfort in my despair
You are dust and I am bone
And I will love your endless gaze of madness until I turn to stoneHello cruel world do you know that you're killing me?
I don't mind but I could use a little sympathy
I've been blind as a fool can be
My dear cruel world now I know you are my everythingPlease forgive meHello cruel world do you know that you're killing me
I don't mind but I could use a little sympathy
I've been blind as only a man can be
My dear cruel world now I've made a mess of everything
