

# Hello Cruel World

## sole...

I can't stop the way I feel

But I can penetrate your religion with a nail

You are mine and we are twine

When we radiate in waves together everything is fineHello cruel world do you know that you're killing me?

I don't mind but I could use a little sympathy

I've been blind as a fool can be

My dear cruel world do you ever think about me?I can feel so alone with you right here

And yet I turn to you for comfort in my despair

You are dust and I am bone

And I will love your endless gaze of madness until I turn to stoneHello cruel world do you know that you're  
killing me?

I don't mind but I could use a little sympathy

I've been blind as a fool can be

My dear cruel world now I know you are my everythingPlease forgive meHello cruel world do you know that  
you're killing me

I don't mind but I could use a little sympathy

I've been blind as only a man can be

My dear cruel world now I've made a mess of everything
