

# Holiday Made for Two

[Dave Barnes](#)

Winter days are moving in  
Picking out a tree again  
It's you I'm thinking of Everything in red and green  
Along those city streets  
It's you I'm thinking of December days  
Make me feel this way  
Hope you feel the same Nobody wants to be lonely on Christmas  
Nobody wants to be blue  
You are the one on the top of my wish list  
After all, it's a holiday made for two Houses hung with Christmas lights  
Sing along with silent night  
It's you I'm thinking of Boys and girls and Santa Claus  
Wreath hung on the City Hall  
It's you I'm thinking of December days  
Make me feel this way  
Hope you feel the same Nobody wants to be lonely on Christmas  
Nobody wants to be blue  
You are the one on the top of my wish list  
After all, it's a holiday made for two There's mistletoe  
And you never know  
What the night might have in store Girl, I confess  
Ever since we met  
You're the present I've been waiting on Nobody wants to be lonely on Christmas  
Nobody wants to be blue  
You are the one on the top of my wish list  
After all Nobody wants to be lonely on Christmas  
Nobody wants to be blue  
You are the one on the top of my wish list  
After all, it's a holiday made for two Me and you  
Me and you
