About Love

[Ben Sidran](#)

And have you ever loved so much it broke you in two
But still you never even dreamt of leaving
And have you ever thought, there's nothing I wouldn't do
'Cause if you had then you would never tell me
"Move up, move on
Be string, as everyone must"
But if you'd ever missed someone the way I do now
You would understandIf you knew anything, anything about love
If you knew anything, anything about loveAnd have you ever seen that somebody walk in a room
And suddenly you heart is beating like a drum
Have you ever sat and prayed for that phone call to come
'Cause if you'd done, then you would never tell me...
"Move up, move on
Be string, cause everyone must"
'Cause if you ever felt the emptiness that I do now
You would understandIf you knew anything, anything about love
If you knew anything, anything about love
