

# Lack of Oxygen

## Abominable Putridity

Lying in a box  
Dark with emotions  
A claustrophobic disease sets in  
Lungs drawing in more air  
Lack of memory present  
As the heart races with terror  
Lack of oxygen  
Lack of oxygenMissing from the thrid world  
Below the song I lie  
Missing from the third world  
Below the song I lie  
Damage to visceral organs  
Membranes of those cells open  
Adrenaline damage imminent  
Lack of oxygen  
Storming of adrenaline  
Incompatible abnormal rhythms  
Triggering the fear to succumb  
Knowing of what's to come  
Pass away pass away  
Wandering in to the other side  
Calming the fear as a rush subsides  
A stage of separation  
From this physical world  
Pass away passing on to the next  
Sleeping in your grave - lack of oxygenLack of oxygen  
On this side or the other
