

# Stable

## Heavenly Beat

decide in life  
what's worth the pain and regret  
for leaving light in spaces  
best left unlit  
cause  
truth only hurts  
claim just a touch  
and I'm in deep  
admit it's wrong  
that spite only drives me more  
in the end  
are we stable?  
(couldn't feel I'm more alone in this)  
cause I'm falling  
(the truth's awful)  
believe a standard sets  
me apart from all I am  
cleave into what stands for  
love of lust spent  
cause  
truth only hurts  
claim just a touch  
and I'm in deep  
admit it's wrong  
that spite only drives me more  
in the end  
are we stable?  
(couldn't feel I'm more alone in this)  
cause I'm falling  
(the truth's awful)
