

# eighth wonder

## Sleepy Hollow

I've been thinking about me  
Wondering who I am  
Trying to be somebody  
Wonderin' if I canI look into the mirror  
Have this silent fear  
There is no one really thereThey say, there are seven wonders of this world  
What would the eighth one be?  
If I could just love myself  
The way, the way that the Lord loves meIf there are seven wonders of this world  
What would the eighth one be?I keep building and building  
Walls around the truth  
But what I'm really needing  
Is to find my rest in YouNothing will have meaning  
Till I start believing  
Just how much I mean to You  
How much I mean to YouThey say, there are seven wonders of this world  
What would the eighth one be?  
If I could just love myself  
The way, the way that You love meLord, I feel the wonder in this world  
When I understand  
Through Your loving eyes, You see  
The wonder of who I amLord, I feel the wonder in this world  
When I understand  
Through Your loving eyes, You see  
The wonder of who I am
