

# Deadman's Gun

## Ashtar Command

Your hands upon  
A deadman's gun, and you're  
Lookin' down the sightsYour heart is warm  
And the seams are torn, and they've  
Given you a reason to fightAnd you're not gonna take, what they've  
Got to give  
And you're not gonna let 'em, take your  
Will to live  
Because they've taken enough  
And you've given them all you can give  
And luck won't save them tonight  
They've given you a reason to fightAnd all the storms you've been chasin'  
About to rain down tonight  
And all that pain you've been facin'  
About to come into the lightYour hands upon  
A deadman's gun, and you're  
Lookin' down the sightsYour heart is warm  
And the seams are torn, and they've  
Given you a reason to fightAnd you're not gonna take, what they've  
Got to give  
And you're not gonna let 'em, take your  
Will to live  
Because they've taken enough  
And you've given them all you can give  
And luck won't save them tonight  
They've given you a reason to fightAnd all the storms you've been chasin'  
About to rain down tonight  
And all that pain you've been facin'  
About to come into the light
