

Bill Gates Ringtone

Dryjacket

I am reasonable, you are intolerable
There is a backup plan in my dresser drawer telling you what you want to hear and more
I was reasonable, you stayed intolerable You're just pointing out the problem without a solution
Withhold, if I could just get a word in maybe we'd buy some time
Another year
Familiar places and sounds hit me before everything else
Hit me before anything else
Recycled words from everyone Talk through your teeth using middle names
Illness subsides as the seasons change
Crescent smiles widen ear to ear
Roadside gravestone wishing you were there
You're just pointing out the problem without a solution
You're just pointing out the problem without a solution
Withhold, if I could just get a word in maybe we'd buy some time
Another year
Familiar places and sounds hit me before everything else
Hit me before anything else
Recycled words from everyone
