Disclosure

Ralphie B.

Stand up
For something worth fighting for
We're not going down without a fight
Stand up
You're never gonna take us alive

Well excuse me while I catch my breath
I never thought that this could happen
I would've guessed that our own death
Would have come from our own actions

Oh the urgency
The emergency

Oh my God, look at what's become
It's them or us or it's over
It's them or us, my brother

God, look at what they've done
It's them or us or it's over
It's them or us, my brother

Pardon me while I begin to process this information
Tyrants reigning from the sky
Destroying all our nations

Where is your God now?
They said to bow down
I guess it's time for us to rise up and raise arms

Oh my God, look at what's become
It's them or us or it's over
It's them or us, my brother

God, look at what they've done
It's them or us or it's over
It's them or us, my brother

Nowhere to run to
No point in hiding

Our existence has been misguided
And now we must try to defend all our lives
It's now or never

Stand up
For something worth fighting for
We're not going down without a fight
Stand up
You're never gonna take us alive

Oh my God, look at what's become
It's them or us or it's over
It's them or us, my brother

God, look at what they've done
It's them or us or it's over
It's them or us, my brother

It's them or us, my brother
It's them or us
