

Wonder Girl

Sparks

She was a wonder girl
(Some girl, that girl)
She was a wonder girl
(Some girl, that girl)It was a grand old time we had
She was there and I was pretty glad about that too
Knowing that she knew a thing or twoShe was a wonder girl
(Some girl, that girl)She was a wonder to her friends
It's a wonder that she always started trends
And after all, trends make us contenders in the fall
Wonder girl, do me right at this ungodly hourShe was a wonder to her dad
A self-made man who owned all that he had
And after all, self-made men have daughters who just won't ball
Wonder girl, make me a wonder boyShe was a wonder girl
(Some girl, that girl)
