Denim Demon

Turbonegro

I tried to be part of the scene
Bought all the records and magazines
But all the kids they put me down
Laughed and said I was a clown
Said they didn't want me around
Made me feel so all aloneBut now I'm back with a bang
I've got my own leather gang
And all of them are men
And denim's back againAnd I am, and I am
I am a denim demon
Got my own congregation
I am a saint for seamenAnd I am, and I am
I am a denim demon
You've got my penis steaming
And your asshole screaming, "Help"The day is black, the night is white
The disco sun, it shines so bright
Protruding buttocks left and right
I draw my sword prepared for fight
The stench of piss reveals your fright
Your asshole is in for a rideBut now I'm back with a bang
I've got my own leather gang
And all of them are men
And denim's back againAnd I am, and I am
I am a denim demon
Got my own congregation
I am a saint for seamenAnd I am, and I am
I am a denim demon
You've got my penis steaming
And your asshole screaming, "Help"Outside of society, good head, good head
Outside of society, good head, good head
Outside of society, good head, good head
Outside of society, good head, good headOutside
