

# Denim Demon

## Turbonegro

I tried to be part of the scene  
Bought all the records and magazines  
But all the kids they put me down  
Laughed and said I was a clown  
Said they didn't want me around  
Made me feel so all alone But now I'm back with a bang  
I've got my own leather gang  
And all of them are men  
And denim's back again And I am, and I am  
I am a denim demon  
Got my own congregation  
I am a saint for seamen And I am, and I am  
I am a denim demon  
You've got my penis steaming  
And your asshole screaming, "Help" The day is black, the night is white  
The disco sun, it shines so bright  
Protruding buttocks left and right  
I draw my sword prepared for fight  
The stench of piss reveals your fright  
Your asshole is in for a ride But now I'm back with a bang  
I've got my own leather gang  
And all of them are men  
And denim's back again And I am, and I am  
I am a denim demon  
Got my own congregation  
I am a saint for seamen And I am, and I am  
I am a denim demon  
You've got my penis steaming  
And your asshole screaming, "Help" Outside of society, good head, good head  
Outside of society, good head, good head  
Outside of society, good head, good head  
Outside of society, good head, good head Outside
