

# Who's To Say?

## Moon Taxi

You've seen this side of me before  
And I'm letting go  
A little more Put on the colors of the night  
And disappear  
Into the wild And you can try to talk about it  
With the words stuck in your head  
But I'm not gonna hear 'em anymore 'Cause who's to say that I'm crazy?  
Keep it to yourself  
Oh ohohoh  
And you think you can save me  
But I don't need your help And I don't need nobody's help  
I can go it on my own  
See who you are  
When you're alone And you can try to talk about me with the words stuck in your head  
But I'm not gonna hear 'em anymore 'Cause who's to say that I'm crazy?  
Keep it to yourself  
Oh ohohoh  
And you think you can save me  
But I don't need your help And I don't need nobody's help  
I don't need nobody's help  
Wooh  
Oh ohohoh  
Oh ohohoh You can try to talk about me with the words stuck in your head  
But I'm not gonna hear 'em anymore 'Cause who's to say that I'm crazy?  
Keep it to yourself  
Oh ohohoh  
And you think you can save me  
But I don't need your help  
(One more time) And I don't need nobody's help  
I don't need nobody's help  
I don't need nobody's help
