Normal

[Deadstar Assembly](#)

Everyday I play the game
It keeps me somewhat sane
An attitude adjustment
A fliter for my fucking brain
I try my best to stay that way
But it's hard for longWhy must I comply
And change my life
To be so called right
What makes your way rightNormal people don't act that way
Who wants to be normal anyway?
Normal people don't act that way
Who wants to be normal anyway?Everyday it's all the same
We buy and sell the pain
Societies addictions
Injected into every vein
I try my best to stay away
But it's hard for longWhy must I comply
And change my life
To be so called right
What makes your way rightWho wants to be normal anyway?
Who wants to be normal anyway?We're all on display
Animals in a cage
We're all on display
Animals in a rageWe're all on display
Animals in a cage
We're all on display
Animals in a rageNormal people don't act that way
Who wants to be normal anyway?
Normal people don't act that way
Who wants to be normal anyway?
Normal people don't act that way
Who wants to be normal anyway?
Normal people don't act that way
Who wants to be normal anyway?
