

# Waiting for You

## Souleye

Chorus:

Why are you waiting /  
For your greatness /  
You can have it right now /  
It's right there waiting for you /

It's was only one night /  
Yet it felt like a whole life /  
Scars left to help remind us of the change /  
Scuba dive with the sharks /  
Couple hammer heads /  
Realize the fear then release it /  
You can see the after glow /  
Pack your clothes it's time to go/  
On till the lights out /  
Anybody ever been ready /  
To be living in a world where /  
The vales are pulled away /  
Can I get another minute? /  
I really want to listen /  
And get to know what you have to say /  
It's so clear and it's calm /  
Right before it is gone /

Chorus:

Why are you waiting /  
For your greatness /  
You can have it right now /  
It's right there waiting for you /  
Consider it done / I am the son  
Of a numb American /  
Can you really get it? /  
If you wanna karma drama /  
I'm a be the man that I want to be /  
Not born be / Do you hear the difference /  
I'm stronger than I've ever been /  
No longer a loner / Now that I know ya /  
I'm older taken flight up /  
Right past cloud nine /

Stair way to the gate way /  
What a night that that was /  
Blast off remove the ceiling /  
You get the notion /  
Soaking in no smoking mirrors /  
I've got you coming /  
And going / and in we go  
Moving on up in to that  
World that we all know as light /
