

Paranoid (feat. Waka Flocka & Chaz)

Gucci Mane

[Hook: Gucci Mane]

Paranoid, I gotcha paranoid

Gucci Mane, that trap better not have you paranoid

Paranoid, I gotcha paranoid

You can run, but you can't run, cause I can see you boy

Paranoid, I gotcha paranoid

Gucci Mane, that trap better not have you paranoid

Paranoid, I gotcha paranoid

Gucci Mane, I'm on that ass, I gotcha paranoid[Verse 1: Chaz Gotti]

I see you boy, see you boy, might not wanna be you, boy

Make me pull that heater boy, I sip on lean that eastern, boy

Shout out 1.0 (?), boy

My bitch is bad, she get you perfect picture, Mona Lisa

Don't step on like sneakers

2 chains on like Tity Boi, You know clip on my Ditty boy

Drop the top, no ceilin', boy, man, get out your philly boy

Gun tech nigga like Allen, 4 rings on, no Allen

Pull up on that outtie, all these money problems

There's a drought on Act? I got it, I heard there as an outage

All this money pilin', niggas paranoid around me

I breakdance in the park, they call me Gotti MC Hammer

Free Guwap, Guwap, Guwap, nigga, king of east Atlanta[Hook: Gucci Mane]

Paranoid, I gotcha paranoid

Gucci Mane, that trap better not have you paranoid

Paranoid, I gotcha paranoid

You can run, but you can't run, cause I can see you boy

Paranoid, I gotcha paranoid

Gucci Mane, that trap better not have you paranoid

Paranoid, I gotcha paranoid

Gucci Mane, I'm on that ass, I gotcha paranoid[Verse 2: Waka Flocka Flame]

Lord knows that llama on me, fuck you and your dead homies

Plug dead, juggin' Taylor Swift, pussy shot at me, but that nigga missed

Ballin' 09 poppin' cleats, your favorite rapper lyin, he just poppin' shit

It's a dog eat dog world, baby girl, better get your money, don't fuck for free

How the fuck you Muslim with a Jesus piece?

I can tell he's nervous when he look at me

Murk your lil homie, wipe his home with bleach

I'mma teach ya pussy niggas not to reek

I'mma teach ya pussy niggas how to beef

I'mma teach ya pussy niggas not to talk
Nigga freezed up when he shot the four
Throw the Es up like a GD4
