

# Something So Beautiful

Emma Bunton

All the simple things you say  
(Never gone away)  
Taken all my breath away  
So why I've come back to stay?  
All the little things you do  
(Just like I always knew)  
Keeps me running back to you  
'Cause I belong with you  
There is something that's quite beautiful  
Found what I've been looking for  
Like the sunshine it's so wonderful  
In my heart I'm feeling something that's so beautiful  
Something so beautiful, something so beautiful  
This is the place where I can lay  
(Now, I'm home to stay)  
Puts a smile upon my face  
Keeps me warm and safe  
Time is proof that we're not wrong  
(Always been so strong)  
I never felt like I was gone  
I'm back where I belong  
There is something that's quite beautiful  
Found what I've been looking for  
Like the sunshine it's so wonderful  
In my heart I'm feeling something that's so beautiful  
Something so beautiful, something so  
There is something that's quite beautiful  
Found what I've been looking for  
Like the sunshine it's so wonderful  
In my heart I'm feeling something that's so beautiful  
Something so beautiful, something so beautiful
