City On Fire

Johnathan Rice

No love, no love
Stop right where you are
Yeah there's no use pretending
There's nothing left to see belowBelow love, bellow love
Our little window
There's the sound of shouting
Explosions in the streetSo, sleep well tonight my dear
Sleep sound shut out the noise you hear
You know it gets harder with each passing yearNo love, no love
Stop right where you are
Yeah there's no use pretending
Because there's nothing left to seeSo, sleep well tonight my dear
Sleep sound shut out the noise you hear
You know it gets harder with each passing yearCity in love, city on fire
City in love, city on
City in love, city on fire
City in love, city on, city on fireI awoke to find the city on fire
I awoke to find the city on fire
I awoke
