Strong As Steel

Tina Arena

We've been so close to each other
Can't think of a moment
That you weren't there
We've been through so much togetherCan't think of a feeling
That we haven't shared
Ooh how many lovers
Ever found the kind of love that we gotOoh there ain't many others
'Cause you know what we've got is a real thing
Oh it's ever lastingThis love is as strong as steel
Can't break it up or break it down
It's always gonna be around
This love is a love that's real
It's as deep as any ocean goes
It's gonna last don't you know,
This love is strong as steelWe've been right here for each other
Even through the times when
Times were hard for us
When it rained we came through shining
Always knew we'd make it
All it takes is trust
Ooh and now there's nothing
That could ever come between you and me
Ooh our love is one thing
That just keeps on getting better
The more that we're togetherThis love is as strong as steel
Can't break it up or break it down
It's always gonna be around
This love is a love that's real
It's as deep as any ocean goes
It's gonna last don't you know
This love is strong as steel
There ain't no rainy weather
That's gonna sweep this love away
We're gonna stand together heart to heart
And nothin's gonna tear this love apartThis love is as strong as steel
Can't break it up or break it down
It's always gonna be around
This love is a love that's real
It's as deep as any ocean goes

It's gonna last don't you know
This love is strong as steelThis love is as strong as steel
This love is a love that's real
It's as deep as any ocean goes
It's gonna last don't you know
