Tonight

Radney Foster

Linda's going down town tonight
'Cause she doesn't wanna be alone
She's got everything in this world
Except the love of a man at homeShe keeps on hopin'
That door is open
Down on Broadway she knows a place
Where dreams rave onTonight ain't gonna be the same old, same old
Tonight gonna throw all the numbers out of the window
If she feels like dancin' until the morning light
It's heart over mind, head over heels tonightLinda's talking about quitting her job
And runnin' on to Mexico
She's just bluffing but another margarita
Who knows we both might goSome of her insanity
Is starting to rub off on me
Any dream we can dream up
She says, might come trueTonight ain't gonna be the same old, same old
Tonight gonna throw all the numbers out of the window
If we feels like dancin' until the morning light
It's heart over mind, head over heels tonightNo telling where this might end up
Linda she ain't ruling out love tonightTonight ain't gonna be the same old, same old
Tonight gonna throw all the numbers out of the windowTonight
It's been living tonight
Yeah, baby tonight
One, two, three, tonight
