

Something of Value

Yellowcard

All that I need to hear from you
Something of value but something untrue
All that I wished that I'd find within you See how what she wanted and she needed
Tore it all down in the end
Some how like a sickness, she infects me
She's simple but deadly my friend All that I needed to hear from you
Something of value but something untrue
All that I wished that I'd find within you
Stings when I see all the ways that you Took me for granted and told me it's through
Picked from my pockets and smiled
Empty is nothing and nothing is you
I think I'll just sit for a while, for awhile See how what I wanted and I needed
It wasn't enough in the end
Some how with the quickness, I forgot her, I realized
She wasn't my friend See how what I wanted and I needed
It wasn't enough in the end
Some how with the quickness, I forgot her, I realized
She wasn't my friend All that I needed to hear from you
Something of value but something untrue
All that I wished that I'd find within you
Stings when I see all the ways that you Took me for granted and told me it's through
Picked from my pockets and smiled
Empty is nothing and nothing is you
I think I'll just sit for a while All that I wished that I'd find within you
Something of value but something untrue
