

Take Me on a Highway

Erasure

Bye bye baby, take me on a highway
This time it could be heaven
Even for a little while, didn't want to miss you
Maybe I can make you feel fine I don't know what you want me to do
But I'm losing control of my senses
And I know I've been counting on you
Just to show that you really care I can see that your star is ascending over me But I don't wanna go there
'Cause I'm feeling so scared
I've had enough of this love
And you calling the shots outta thin air And I'm full of emotion
When you don't believe me
'Cause baby, here comes a crash
And I'm dying inside when you leave me I don't know what you're putting me through
But it seems that the party is over
In and out of love with you
And I think that I'm losing my mind I can see that your star is ascending over me But I don't wanna go there
'Cause I'm feeling so scared
I've had enough of this love
And you calling the shots outta thin air And I'm full of emotion
When you don't believe me
'Cause baby, here comes a crash
And I'm dying inside when you leave me But I don't wanna go there
'Cause I'm feeling so scared
I've had enough of this love
And you calling the shots outta thin air And I'm full of emotion
When you don't believe me
'Cause baby, here comes a crash
And I'm dying inside when you leave me But I don't wanna go there
'Cause I'm feeling so scared
I've had enough of this love
And you calling the shots outta thin air
