

# Mark My Words

## P.O.D.

Checkmate, pull the plug on a fake  
Get to steppin' too late, gotta take 'em, break 'em down  
One testify, see the fire in his eyes  
We determine the ghost when a warrior cries that sound Spirit flips, soul spits  
Meditate on the words from the King's lips  
Apocalyptic, psalm scripted  
Prophet's eyes, Armageddon come quick It's a death wish, of a white witch  
Come inside and I'll tell you where the beast live  
Come inside and I'll tell you where the beast live Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words Soul that's raised by a rush through your veins  
Gonna bring the pain, you can see it's goin' down  
Front line, nobody left behind, rebel soul  
Let 'em know when it's time you better hold your ground Regulate, interrogate, 'cause the enemies loose  
And he's out for the take  
Under no faith, leaving no trace  
Another one took by an old hate It's a death wish, of a white witch  
Come inside and I'll tell you where the beast live  
Come inside and I'll tell you where the beast live Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words Who's got that witch?  
Who's got that witch?  
Who's got that witch? Be not far from me, for trouble is near  
And there is none to help Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words  
Mark my words, mark my words
