In Sorrow

Pestilence

[music: Dennis, Jake lyrics: Jake]Oh mist! This pneumatic mist which exterminates
Brutally dreams and exceptions
Resistance can be corrupted so easy no one could hope
Oh no- no one could hope![chorus]
Mother says life is Godly present
But it hurts you so much, especially in your loneliness
Or if you try to get consoled- consoled in hard times
Using yourself been aggrievedHappines`s song isn`t sung anymore
Retrying for it could be funny
Living in sorrow for ever, and always remembering the lost
And everything which won`t exist againThe blood runs fast-fast in veins following the heartbeats
Feel your nerves-feel your nerves strained feel your mind in pain
Some tears flow, maybe elements of love-maybe elements
Of love hate or sorrowThe pain dominates when the fist breaks the pane of glass
The anger becomes bigger, the cries so woeful
Some times of tranquillity are enough
Before next bursting out which maybe deliver foreverIN SORROW!!!
