

# In Sorrow

## Pestilence

[music: Dennis, Jake lyrics: Jake] Oh mist! This pneumatic mist which exterminates  
Brutally dreams and exceptions  
Resistance can be corrupted so easy no one could hope  
Oh no- no one could hope! [chorus]  
Mother says life is Godly present  
But it hurts you so much, especially in your loneliness  
Or if you try to get consoled- consoled in hard times  
Using yourself been aggrieved Happiness's song isn't sung anymore  
Retrying for it could be funny  
Living in sorrow for ever, and always remembering the lost  
And everything which won't exist again The blood runs fast-fast in veins following the heartbeats  
Feel your nerves-feel your nerves strained feel your mind in pain  
Some tears flow, maybe elements of love-maybe elements  
Of love hate or sorrow The pain dominates when the fist breaks the pane of glass  
The anger becomes bigger, the cries so woeful  
Some times of tranquillity are enough  
Before next bursting out which maybe deliver forever IN SORROW!!!
