

Open My Present

Eels

I wanna open my present
look at it rapped up in little pink bows
back up tight just waiting for me,
rip it open and set it freeI wanna open my present
well I'm a good boy, I behave myself
I've been patient and waiting so long
but waiting you longer it just feels wrongI know it's great I just can't waitIt's right in front of me,
I can't stop thinking about it
what's the hope ain't letting me,
go no longer, living without itI wanna open my present
Well I've been working hard for too long
Say my prayers and getting my sleep,
then require now making up pipI know it's great, I just can't waitIt's right in front of me,
I can't stop thinking about it
what's the harm I ain't letting me,
go no longer, living without itI wanna open my present
look at it rapped up in little pink bows
back up tight just waiting for me,
rip it open and set it freeRelieve my state I just can't waitI wanna open my present
