Red & Violet

Kidneythieves

He eats red and all violet
Kills fishes with a rock star flag
Caught up in a vacuum breeze where
Moans and cries dissolve in speed
It's your life without a life
(red + violet fades)
It's your life without a life
(red + violet fades)
He eats red and all violet
Newer skin makes him giant
And he's bought a grin, soon to leave
Tenor howls dissolve in speed
It's your life without a life
(red + violet fades)
Running out of running time with your life without a life
(red + violet fades)
please don't send another rose this time

(please don't, what you hold will fade just like a rose and you'll be alone, can't you see that what you hold it isn't gold)
please don't send another goddamn rose
the desire's sweet you keep taking blood from me
please don't send another goddamn rose
please don't send another goddamn rose
It's your life without a life
(red + violet fades)
Running out of running time and in the end you're gonna find
(red + violet fades)
red + violet fades
red + violet fades... yeah
please don't send another rose
please don't send another rose this time.
