

# R.I.P. (Rest in Pain)

## Sepultura

Fast death, disenchanted by the life  
Marked by the envy and scorn  
Show to the world his mortal hate  
Die with regrets There's no light and there's no air  
The roses smell corrodes  
A deep agony possesses me  
To be forgotten under a burial Rest in pain  
Rest in pain  
Rest in pain You wake up lying on wet ground  
Worms corrodes your flesh  
Pick up your own eyes  
Watch your septic end To shout at someone and not to be heard  
The silence supports the paranoia  
To die crying, this is my fate  
The life I choose Schizophrenia  
Paranoia  
Insane death  
Rest in pain Fast death, disenchanted by the life  
Marked by the envy and scorn  
Show to the world his mortal hate  
Die with regret There's no light and there's no air  
The roses smell corrodes me  
A deep agony possesses me  
To be forgotten under a burial Rest in pain  
Rest in pain  
Rest in pain
