

Entombed We Collide

Death By Stereo

Advisory - the following lyrics contain explicit language:

Hands tied; crucified, lost, found, entombed we collide.

Black whole, my brain,

Focus, insane,

Left out, betrayed,

Your hole, my vane,

I can't sustain, for much longer,

Without your pain, makes me stronger

Sandpaper licking my wounds, I want more, make me hate myself!Ice cold, disown, sickened now,

I can't die in this balloon, suffocating,

This world, disown, sickened now, and now I'm breaking freeI can't feel with this fucking insane, I can't feel

with you fucking my brain,

I can't feel unless you pushed from inside, I caress then crush, hope and the light,

I will burn this book, shove it inside, Shove it up my ass, spit out your pride,

I can't think, I'm just fucking instead, Somebody slit my throat, D.B.S!

Sandpaper licking my wounds, I want more, make me hate myself!Ice cold, disown, sickened now,

I can't die in this balloon, suffocating,

This world, disown, sickened now, and now I'm breaking freeIce cold, fit the mould, crushing me, I'm breaking

free, I can't die in this balloon,

Blood! I wasn't born from this womb,

Pain! This world, crushing me alive,

Cum! My will is stone, my hope won't die,

Blood, pain, cum, insane,

Blood pain, cum, the sameI collide, consumed inside,

This hate, this life, then we slide,

Entombed inside we collide,

I collide, then it diesIce cold, disown, sickened now,

I can't die in this balloon, suffocating,

This world, disown, sickened now, and now I'm breaking free

Breaking free
