

# Don't Come Running

## Flatt Lonesome

Well you tell me today you were going far away  
You tell me you wanna be free  
But if your new friend breaks your heart in the end  
Don't you come running back to me Oh my darling go and stay if you want it that way  
You don't love me and that is plain to see  
If your new love turns you down, I won't be hangin' round  
So don't you come running back to me Just remember before you walk out the door  
Once we were happy as can be  
Then once you've gone away, there you'll have to stay  
Don't you come running back to me Oh my darling go and stay if you want it that way  
You don't love me and that is plain to see  
If your new love turns you down, I won't be hangin' round  
So don't you come running back to me Oh my darling go and stay if you want it that way  
You don't love me and that is plain to see  
If your new love turns you down, I won't be hangin' round  
So don't you come running back to me Don't you come running back to me
