

Planes (Produced By James Bryan)

Yuna

Driving fast but I am nowhere
I'm at home when I am out there
I speak louder when I'm silent
Tryna be somewhere I'm not but I'm so confused, I'm just like you Ooh Wipe the sleep from my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly I feel lost but
I'm surrounded by a million perfect strangers
You're like lightning I'm so grounded
But I'm flying when I'm next to you I'm so confused, you might be too Ooh Wipe the sleep from my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly I'm so confused, I'm just like you Ooh Wipe the sleep from my eyes
Wake up in another life
I don't like planes
But I love to fly Love to fly I got friends but I'm still shy
Sometimes I laugh sometimes I cry
I don't like planes
But I love to fly Love to fly
