

Vacant Heart

[Matt Walters](#)

Have you seen a girl, she's 5ft 4
The last admit I saw of her she was running out my door
She had 2 bags and a look in her eyes
That said that this would be the last time she'd say goodbye
But I wish there was a reward but she took it all (my love)

But every ones a vacant heart when will love move in
It's in the news that we all lose when love ain't moving in
I only have these empty rooms and there all filled with space
And I can't seem to find much love in this place
And the doors that close behind leave me standing cold outside
I'm just a vacant heart

I put her pictures in a box and now my walls are bare
The shadows that were once her things now seem to disappear
The boxes were once empty things until you filled them up
Now heart is just another box with no room at the top
Now I stand with that look in my eye that said that
I can't take one more goodbye

But every ones a vacant heart when will love move in
It's in the news that we all lose when love ain't moving in
I only have these empty rooms and there all filled with space
And I can't seem to find much love in this place
And the doors that close behind leave me standing cold outside
Now, love ain't moving in no without somethings the heart forgets
When memories bring her back instead

But every ones a vacant heart when will love move in
It's in the news that we all lose when love ain't moving in
I only have these empty rooms and there all filled with space
And I can't seem to find much love in this place
And the doors that close behind leave me standing cold outside
I'm just a vacant heart
I'm just a vacant heart
