

# Statues

## Hit the Lights

Advisory - the following lyrics contain explicit language:

They'll build statues in our likeness  
They wanted to be like us  
But did they ever like us anyway? We gave them the cold shoulder  
Our shoulders just got colder  
Did they deserve an elbow to the face? I'll build this monument just to tear it down  
And dedicate it to this bitter town  
And this broken sound And I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here And I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here, wish you were here I'll build a throne made from the bones  
Of those who died searching for gold  
Just to find it's found inside our hearts What a tip you'll hear them say  
Tossing turning in their graves  
All this time searching in vain for what Blowing kisses to the masses in this ticker tape parade  
We're saints of this back seat, swear to God  
We've got it made And I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here Yeah, I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here, I wish you were here Today, we're making history  
Tonight, we'll take you to the streets  
Tomorrow, we'll live in infamy  
We're under attack  
Pull the knife from my back  
And hold it to their throats And I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here Yeah, I'll send postcards to enemies  
Make sure to sign and date each one  
While singing wish you were here They'll build statues in our likeness  
Wanted to be like us  
But did they ever like us anyway?
