Bighouse PyromaniacÂ

Fool's Garden

We've got a big house
and the speaker says
that there's no explaination.
We've got a big house
and we don't wanna live inside no more.
We've got a big house
and the whole whole world
has heard this detonation.
We've got a big house
and we don't know
where it is - what it is.You say - today
I don't wanna work it out.
Sorry - no way
I don't wanna work it out.
My mind is clear
and I wanna shout it out.
Hey, can you feel the explosion?Hey, how? I don't know what it is.
Hey, how! We celebrate this...We've got a big house
and the speaker says
that there's no explaination.
We've got a big house
and we don't wanna live inside no more.
We've got a big house
and the whole whole world
has heard this detonation.
We've got a big house
and we don't know
where it is - what it is.Sorry!
Where do you go?
I always thought that you would like some action.
Sorry!
I didn't know,
you make me feel it was the wrong attraction.We've got a big house
and we don't know,
we've got a big house
and we don't know
what it is!Right now, I feel
I don't wanna work it out.
No doubt, it's real,

so why don't you shout it out.
Your smile is gone away.
Do you see the cloud
of the explosion?Hey, how? I don't know what it is
Hey, how! We celebrate this... moment,
this moment (this moment).Sorry!
Where do you go?
I always thought that you would like some action.
Sorry!
I didn't know,
you make me feel it was the wrong attraction.We've got a big house
and we don't know,
we've got a big house
and we don't know
where it is - where it is!
