

# Oak Tree

Jude Moses

I climbed the oak tree in Grandma's backyard  
I talked to the moon  
Said to me, "Son you'll be alright just don't cry"

I want you, I love you  
Let me hold for a little while

I went to the mountain side to fight the beast  
To earn my name  
I fight to the brink of my life I turn the tide

I want you, I love you  
Let me hold for a little while

I sailed the river road to catch the fish  
That no ones caught  
I stared you in the eye, you swam away I'll catch you someday

I want you, I love you  
Let me hold  
I want you, I love you  
Let me hold  
I want you, I love you  
Let me hold for a little while

I run away with you  
I run away with you  
I run away with you  
I run away with you  
I run away with you  
I run away with you  
I run away with you
