

# Clap for the Killers

## Street Sweeper Social Club

Now can you clap for the killers? Give it up for them gangsters  
One time for the killers, double up for them gangsters Well, I wrote this for criminals but all of y'all should  
listen at me  
Now if you ever catch me snitchin' just haul off and slap me  
They on the other team, let's rumble, is my thoughts exactly  
They work for gangsters and they whacked Fred Hampton Jr.'s pappy Ay playboy, pop 'em with a pistol and get  
executed  
Ay mama, murder 'em with missiles and you get saluted  
Go head and gank 'em for a grand its DNA computed  
But bankers bathe in the Bahamas off of billions looted Now can you clap? Now can you clap?  
Now can you clap for them killers? Give it up for them gangsters  
One time for the killers, double up for them gangsters Well, I wrote this for criminals but they the ones who  
wrote the laws  
They ain't on TV gettin' arrested all up in their draws  
They stick their hands up politicians make 'em move their jaws  
And they be starvin' folks for bread until their breath pause Ay, take a memo money penny, say the deed is done  
And you can Bcc DC and say our leaders won  
But first we fax the photograph of the opponent's son  
Adjust the image 'cause it's hard to see the gag and gun Now can you clap? Now can you clap?  
Now can you clap? Now can you clap?  
Now can you clap for them killers? Give it up for them gangsters  
One time for the killers, double up for them gangsters Well, I wrote this for gangsters  
While I sprinted through your backyard  
Not for them Coppola criminals, they just act hard  
Tony Montana had a stylist and a SAG card  
When he reloaded slaves forgot they had back scars Ay mister DeNiro, what kind of gun is that?  
Can you look more like a menace? Take two now run it back  
Ay, so what Scorsese got all them money stacks  
Long as his lens never looks at the real maniacs Clap for them killers? Give it up for them gangsters  
One time for the killers, double up for them gangsters  
Can you clap for them killers? Give it up for them gangsters  
One time for the killers, double up for them gangsters
